

Molecular Spectroscopy Science Meeting 2018

6th – 7th November

University College London, Department of Chemistry

REGISTRATION NOW OPEN: <https://tinyurl.com/MSSM2018>

The next ISIS Molecular Spectroscopy Group meeting will be held in London this November.

Exciting advances in neutron science and molecular spectroscopy will be discussed across the following thematic areas:

- Industrial Challenges
- Environmental Materials
- Looking Back: Archeometry & Cultural Heritage
- Back to Fundamentals: Water & Aqueous Media

**Registration extended
until 17th October**

Confirmed keynote speakers:

Dr Alexander de Bruin
Prof Maria Paula Marques
Prof Paul McMillan
Prof Angelos Michaelides
Prof Neal Skipper

Keynote lectures will be followed by a number of oral presentations in each thematic area. These talks are intended for early-career researchers aiming to present their work in a friendly, supportive environment.

There will be a poster session at the end of the first day, including rapid one-minute poster presentations ideal for scientists at any stage of their career.

Those wishing to contribute an oral or poster presentation should submit the title during registration to the event. The organising committee will distribute the final programme based on the submissions received. Registration closes 30th September.

Organising Committee: Christoph Salzmann, Roberto Senesi, Emma Roberts, Felix Fernandez-Alonso, Hamish Cavaye
